# 3 simple steps

Get your clients the coverage they need in an instant decision

Go to **JHSimpleTerm.com** and click the **"eApp" button** to complete the electronic application

**Submit the online application**, which takes approximately 5-10 minutes to complete

**Receive an instant decision**

To access Vitality PLUS, clients go to [JohnHancockVitality.com](http://JohnHancockVitality.com) and register after their policy is issued. The policy package they receive will include detailed instructions on how to register for the John Hancock Vitality Program.

# Protection and cash back with the Return of Premium rider

Simple Term with Vitality is one of the only instant-decision life insurance products to offer coverage up to \$500,000. With the optional ROP rider<sup>3</sup>, it offers clients the opportunity to earn cash value throughout the life of their policy — of up to 75% of premiums paid.

Available on 25- and 30-year term durations, the ROP rider's cash value will grow from policy year four until the end of the level-term period, where it will provide up to 75% cash back of total premiums paid. And even if clients exit their policy before the end of the level-term period, they will still be eligible to receive a cash-back benefit.

## How ROP works

Your clients choose a term duration of either 25 or 30 years (with the ROP rider), and pay a level premium throughout the entire term period

The policy earns cash value throughout the policy lifecycle, based on the premiums paid

At the end of the term period, up to 75% of premiums will be returned

Clients who exit their policy before the end of the level-term period will still be eligible to receive a cash-back benefit

The policy's death benefit passes to the client's beneficiaries, generally income-tax free<sup>4</sup>

1. Insurance policies and/or associated riders and features may not be available in all states. Some riders may have additional fees and expenses associated with them.
2. Policy issuance is not guaranteed as any life insurance purchase is subject to completion of an application, including health questions, and underwriting approval. John Hancock may conduct a post-issue quality review to verify the accuracy of the information in the application received. This may include — but is not limited to — a request for medical records. A policy may be rescinded if the review of post-issue information reveals a material misrepresentation.
3. The Return of Premium (ROP) rider allows for a return of a portion of the premiums at the end of the level term period or earlier if the policy is terminated prior to that point. The ROP benefit will generally begin by year 4 and the percentage of premiums available to be returned increases gradually over the term duration to a maximum of 75% at the end of the level term period. The ROP Rider is only available for term durations 25 and 30. There is an additional cost for this rider.
4. Life insurance death benefit proceeds are generally excludable from the beneficiary's gross income for income tax purposes. There are few exceptions such as when a life insurance policy has been transferred for valuable consideration. Comments on taxation are based on John Hancock's understanding of current tax law, which is subject to change. No legal, tax or accounting advice can be given by John Hancock, its agents, employees or licensed agents. Prospective purchasers should consult their professional tax advisor for details.
5. Premium refunds for the Simple Term with Vitality is based on factors like underwriting, the terms of the policy, and the level of the insured's participation in the John Hancock Vitality Program.
6. Apple Watch program is not available in New York or Puerto Rico. Apple Watches ordered through John Hancock Vitality may not be shipped to addresses in Guam. Once you become a Vitality PLUS member and complete the Vitality Health Review (VHR), you can order Apple Watch by electronically signing, at checkout, a Retail Installment Agreement with the Vitality Group, for the retail price of the watch. After an initial payment of \$25 plus tax, over the next two years, monthly out-of-pocket payments are based on the number of Standard Workouts (10,000 to 14,999 steps) and Advanced Workouts (15,000 steps) or the applicable Active Calorie thresholds. The step counts required for Standard and Advanced Workouts are reduced for members beginning at age 71+.
